

*Style.
Purpose.
Craftsmanship.*

You have reached a position in life where compromises are no longer an option. You've worked hard at building a lifestyle that supports your interests, your relationships, and your livelihood.

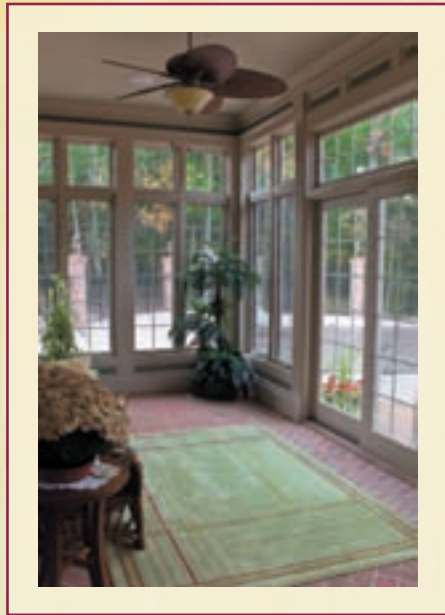

Now, build a home that supports every aspect of your lifestyle. Make it a Foreman-built custom home.

Style. Whether your tastes lean toward Old World refinement, ultra-contemporary sleekness, or something in between, let us help you express the nuances of what makes your style unique in your Foreman-built custom home. Beauty and sophistication of your home—both inside and out—will surely turn heads and make a statement about who you are and how you like to live.

Purpose. Design a kitchen that serves as your home's epicenter for entertainment. Plan a master bathroom as your mini spa-like sanctuary. Install whole-house security and cutting-edge electronic systems that operate your home with smart-technology precision. Incorporate your "green" thinking. Carve-out other spaces for specific interests and hobbies. No matter how unusual your request, your Foreman-built custom home will represent a perfect marriage between form and functionality—spaces that work hard, look great, and feel comfortable.

Craftsmanship. Your Foreman-built custom home will enjoy a long history. Solid construction, carefully selected materials, and reliable workmanship are the hallmarks of our reputation. We seek to incorporate small details that translate into big value. At Foreman Builders, Inc., old fashioned quality standards combined with an up-to-date mindset are the foundation of our craft. But, we don't simply walk away when all is said and done. Expect a relationship with your builder long after you settle into your Foreman-built custom home.
